UNIVERSAL LEARNING REMOTE CONTROL

MODEL: ZR800D

USER GUIDE

Thank you for your purchasing the **ZR800D** universal remote control. It features the largest infrared code library for the American market. Based on our creative design, it has the easiest and fastest way to **set up directly** by the brand name and code number.

The **ZR800D** universal remote control can learn almost all brands of Televisions (**TV**), DVD-players and DVR-players (**DVD**), DVB receivers and (digital) Satellite receivers and Cable box (**SAT**), Video Recorders (**VCR**), Audio amplifiers and LD-players and other Audio (**AUX**), Projector **(PRO)**, Elite Projection Screens (only for brand ELITE)**(SCR)**.

You can use **Auto Search** to scan the code library in case you cannot find your device brand in the list.

In addition, the **ZR800D** can **learn** new codes from an original remote control in case that code is not listed for that model and brand.

Show View function scans all channels for you to have a program quick view.

All off function can switch off all your devices with one button.

Macro function makes several sequent operations with one button for your home theater.

Volume lock can fix VOL+/VOL- button to control Amplifier only for your home theater.

Device lock can fix the device against changing by a new set up until you unlock it.

ZR800D has backlight for LCD screen and separate device backlight to show you the current working device.

Low battery indication to remind you when need to replace batteries.

Light keys all the keys light up to help you to see all the keys clearly in dark environments.

The **ZR800D** also has **real time clock** to show the time and AM or PM.

All the set up data will be stored in **back up memory** permanently; you don't need to be worry about data loss when you replace the battery.

Please read this user manual carefully prior to using your new LCD remote control.

Device Code Assignment

Bank	for Device	Initial code	Total of codes
TV	TV	048	488
VCR	VCR	075	182
SAT	Satellite, Cable, DVB	075	403
DVD	DVD,DVR	026	190
SCR	Elite Screen	001	14
PRO	Projector	002	3 (extend the codes by learning function)
AUX1	AMP, LD,VCD	032	204
AUX2	AMP, LD,VCD	006	204

●**Realizing the keys**

SET   Start to set up (program) the remote control.

LEARN   Setting up learning functions.

MACRO   Sequence operation of your home theater.

TV, DVD, SCR (SCREEN), VCR, PRO(PROJECTOR), SAT,

AUX 1, AUX 2, Select the device you want to control

⏻   Turns the device on and off

0-9 The number keys operate the same as your original remote control,
and can also bused for entering device codes when setting up.

↵   Works like the enter key on your original remote.

● **How to Replace your TV, DVD, VCR, AUX, SAT, PROJECTOR ORIGINAL Remote Control**

You can replace your **TV,DVD,VCR,AUX,SAT, PROJECTOR** original remote controls with ZR800D by learning function easily. That means you do not need to control your home appliance with many remote controls as before, but only one remote control the ZR800D.

The **LEARN** feature is also used to supplement the preprogrammed code list. The standard code list may provide most of the functions needed, but you can add additional special functions of your original remote control for your new

LCD remote control.

Or you can learn all functions of your original remote control to the keys on the LCD remote control you want, and replace your original remote control.

In learn mode, you must need to prepare a another original remote control that you will take the codes into your **ZR800D**.

You can select *LEARN KEY* to learn commands, or *DELETE KEY* to delete learnt commands, or choose *DELETE DEV* to delete all commands under a device*,* or *DELETE ALL* for all learnt commands under all device in learn category.
You can enter into the learning mode to press and hold *LEARN* key for more than 3 seconds.

Learn a Command

1. Press a device key (e.g. *TV*) where you want to learn to.

2. Press and hold the *SET* key for more than 3 seconds, then release it.

3. Scroll ▲ or ▼ key to *LEARNING* in the LCD menu, then press the *OK* key.

4. Scroll▲ or ▼ key to *LEARN KEY* in the LCD menu and then press the *OK* key. The LCD displays *SELECT KEY*.

5. Select the (*target)* key on your **ZR800D** you want to learn (e.g. *Power*).

6. Point the transmitter of the original remote control remotes face to the receiver window of **ZR800D** by approximately 20mm(please notice the distance) apart.

7. Press the POWER key on the **ZR800D,**the LCD displays *WAITING* ;   Press and hold the *original* remote key (e.g. *Power*) until the LCD displays *SUCCESS* for 1 second. If   LCD displays *FAILED*, please Repeat Steps 4-6. Do not shake your original remote control and **ZR800D** when in learning process**.**

8. Repeat Steps 4-6 to learn more other keys.

9. Press a device key (e.g. TV) to quit the learn operation when all desired remote commands are learnt.
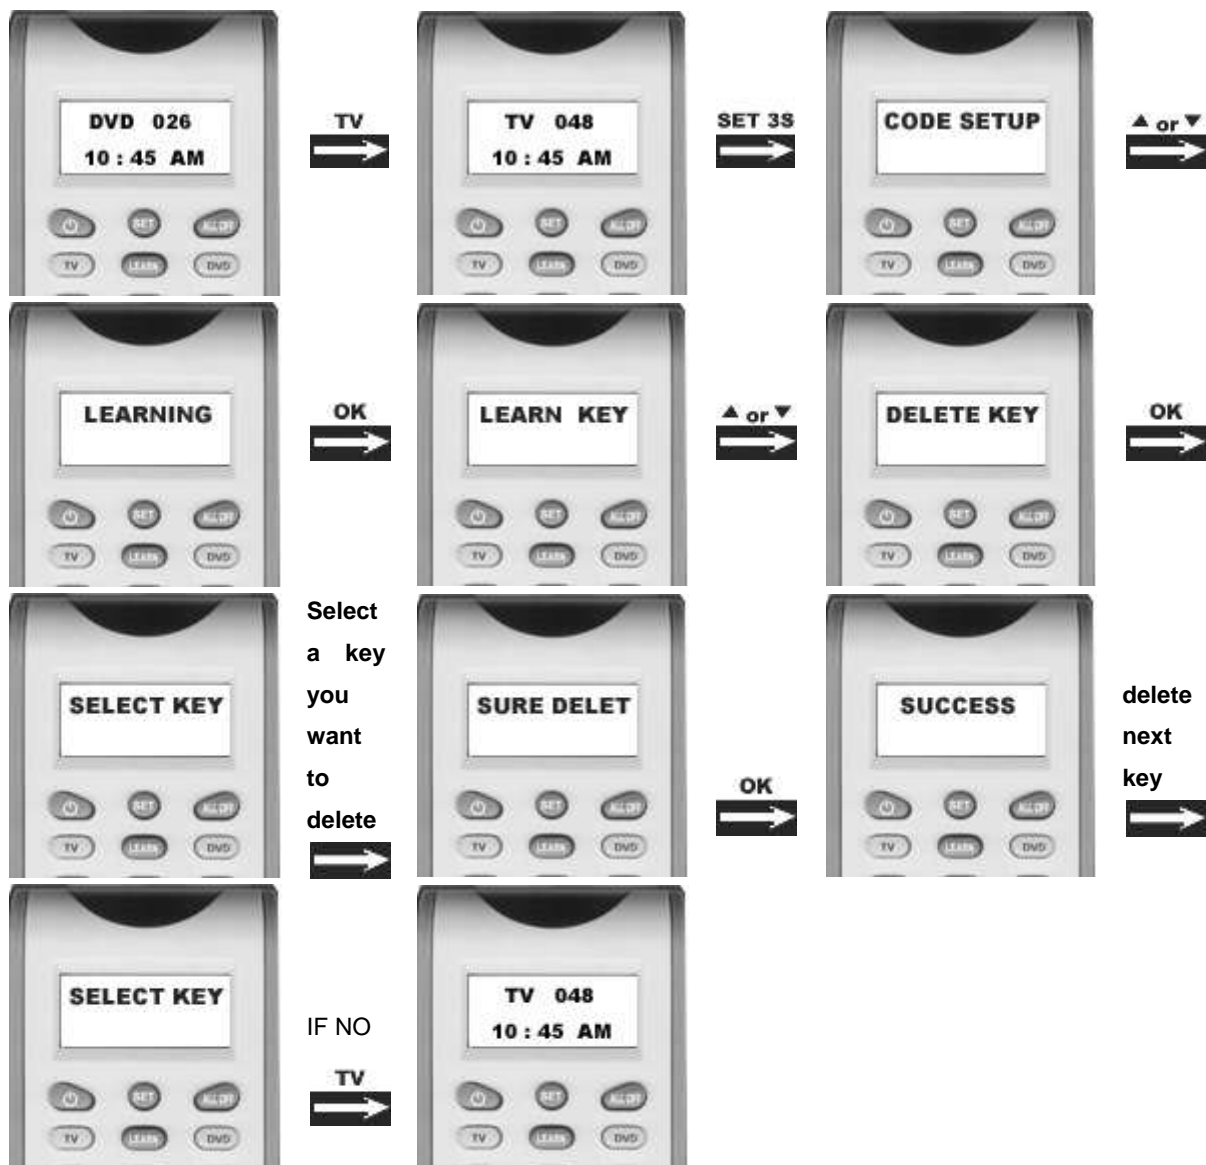

Remark:

1. A selected target key can be multi learnt from different sources key, **ZR800D** will store the final learnt signal only.

2. All usual function keys can be learnt except **SHOW VIEW, ALL OFF, MACRO, DEVICE KEYS**, **LEARN** etc..

3. Some code form may not be learn by this remote control (due to the material cost limit.)

4. You can learn about 100 key totally for 8 devices key.

Delete the Learn Key

If you like to delete a learnt command, you can follow the steps as below:

1. Press the device key (e.g. *TV*) where you like to delete commands from.

2. Press and hold the *SET* key for more than 3 seconds, then release it.

3. Scroll▲ or ▼ key to *LEARNING* in the LCD menu, then press the *OK* key and the LCD display *LEARN KEY*.

4. Scroll▲ or ▼ key to *DELETE KEY* in the LCD menu and then press the *OK* key.

5. Press the key on **R800D** that you want to delete, the LCD shows *SURE DELET* and then press the *OK* key to confirm, the LCD will show *SUCCESS* .

6. Repeat Step 4 to delete next key you want.

7. Press a device key (e.g. TV) to quit the delete operation when all desired remote commands are deleted.

Delete All Learned Keys

If you like to delete all learnt commands in the unit, please follow the below steps:

1. Press and hold the **SET** key for more than 3 seconds, then release it.

2. Scroll▲ or ▼ key to **LEARNING** in the LCD menu, then press the **OK** key, LCD shows **LEARN KEY**.

3. Scroll▲ or ▼ key to **DELETE ALL** in the LCD menu and then press the **OK** key.

4. The LCD shows **SURE DELET**, then press the **OK,** LCD shows **SUCCESS** to finish the deletion.

● **Other Set Up**

☆**1: Direct Set Up** (by Brand and Code) (suitable for TV,DVD,VCR,AUX1.AUX2,SAT)

1. Turn on the device (e.g. **TV**) you would like to operate. If it is a VCR, Please insert a tape.

2. Press and hold the **SET** key on your remote control. Then press (simultaneously) one of the device keys (e.g. **TV**)

3. Then release them, the Brand will be displayed on the screen.

4. You can press the ▲ or ▼ key to select the brand of your device (e.g. your TV brand: **Philips**)

5. Check the function of the keys(such as POWER,MUTE,VOL+,VOL-,CH+,CH-,DIGITAL KAYO,1,2,…9,etc). If none of the keys of your new remote control can work, or most of the keys work improperly,　please try another code by the ◄ or ► key,　then　Check　the　function　of　the　keys(such　as　POWER,MUTE,VOL+,VOL-,CH+,CH-,DIGITAL KAYO,1,2,…9,etc). until all basic functions operate properly.

6. If you are satisfied with the code, just press the **OK** key to save it. LCD shows **SUCCESS**　and then finishes the set up.
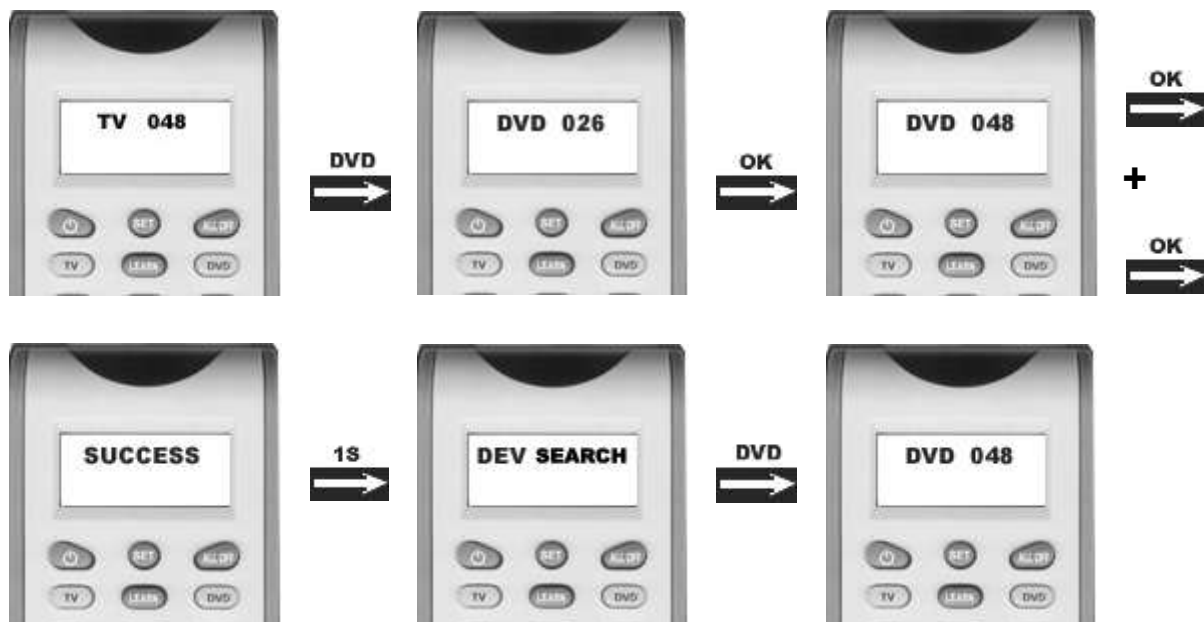

Remark:

    1. To return to beginning status, press the **EXIT** key or the device key (e.g. **TV,** or **VCR**…)

    2. You must point your remote control to the device that you want to control during when you test the keys.

    3. The keys of ▲ ▼ ◄ ► **OK, EXIT** only used to set-up your new remote control during set up. You can't control your device as normal menu function at this moment until you quit from set up.

    4. If the device is locked, you must first unlock the device then setting up.

☆2: Set-up by Auto Search (suitable for TV,DVD,VCR,AUX1, AUX2,SAT)

If the set-up by **brand and code** failed or you cannot find the brand name in your remote control screen, you may use the **Auto Search** to find the correct code to operate your device.

    1. Turn on the device (e.g. television) you would like to operate. If it is a VCR, Please insert a tape.

    2. Press the **SET** key on your new remote control for more than 3 seconds, then release it.

    3. The **CODE SETUP** will show in the LCD menu, then press the **OK** key.

    4. The screen shows the **DEV SEARCH** in the LCD menu, and press the **OK** key, then you press **device key** to select your desired operation device (e.g. **DVD**) and point the remote control to the device you chose already, then press the **OK** key to start the Auto Search.(you must point your remote control to your device at the moment)

    5. See if the device reacts or not, once the device reacts, press any key to stop the search.

    6. Test if most of keys work good or not. If most keys work not good enough, please step 4~5.

    7. If you find one satisfied code please press the **OK** key to save it and LCD shows **SUCCESS** then show **DEV SEARCH**. You can press device key (e.g. **DVD)** again to finish SET UP or use ▲ or ▼ to select other set up.

TV 048 → DVD → DVD 026 → OK → DVD 048 → OK + OK

SUCCESS → 1S → DEV SEARCH → DVD → DVD 048

Remark:

1. In case of you did not stop the search on time when device reacted, you may press the ▲ or ▼ key to search back to find the passed code.(for example, your DVD reacts when the digital is 048 on the LCD, but you do not press any key to stop the searching process synchronously, so the searching process goes on automatically. when you press any key to stop the searching process, now the digital number is already 050. Of course, when you press the POWER or CH+…etc to control your DVD, your DVD will not react. But you can press the ◄ key one time, you will see the digital number changes to 049,and press the POWER or CH+…etc to control your DVD, of course your DVD will not react again; and press the ◄ key one time again, you will see the digital number on the LCD changes to 048,and press the POWER or CH+…etc to control your DVD, this time your DVD will react, then just press the key **OK** to store it **)**

2.The keys of ▲ ▼ *OK, EXIT* are only used to set-up your new remote control during the Auto Search, you can't control your device for menu function at the moment until you quit from the set up.

3. When remote control searches through all codes, the remote control will stop at the beginning code of the search.

4. If the device is locked, you must first unlock the device then set up.

5. **Please remember this digital number for your DVD control, because you can enter this digital number when you use "SET-UP by inter code" quickly next time.**

☆**3: Set-up by Enter Code** (suitable for TV,DVD,VCR,AUX1, AUX2,SAT)

1. Switch on the device, which you would like to control (e.g. TV set).

2. In the process by "**SET-UP by auto search"**, you have found the digital number for your matched device, find the brand code number of your device brand (e.g. **Philips** *001*).

3. Press the *SET* key on your new remote control for more than 3 seconds, then release it.

4. Press the▲ or ▼ keys to select to *CODE SETUP* in the LCD menu, and press the *OK* key.

5. The screen shows the *DEV SEARCH* in the LCD menu, press the ▲ or ▼ keys to select to *DEV SETUP* in the LCD menu, and press the *OK* key.

6. Then you press device key to select your desired operation device(e.g. TV) and then press the *OK* key, you must now enter the **3-digit device code** (e.g. *001* for **Philips** *TV*)

7. Press the *OK* key to save it and LCD shows *SUCCESS,* and press *EXIT* key two times to exit the SETUP mode.

8. You check the function of the keys on remote control(such as the POWER or CH+…etc). If most keys on your new remote control do not function correctly, try another 3-digit device code (e.g. **004…**) from the list under the same brand. Repeat steps 3 to 7 until all the basic functions operate correctly.

☆4: Set up Clock

You can set up the clock on your **R800D** LCD remote control and the clock will be displayed on the screen.

1. Press and hold the **SET** key for more than 3 seconds, then release it.

2. Press the ▲ or ▼ key to select the *CONFIGURE* in the LCD menu, and then press the **OK** key.

3. Press the ▲ or ▼ key to select the *TIME SETUP* in the LCD menu, and then press the **OK** key.

4. Press the ◄ or ► key to move the cursor to select hour or minute or **AM/PM**, then press the number key to set hour and minute, and press the ▲ or ▼ key to select *AM* or *PM*.

5. Press the **OK** key to save the setting and LCD display **SUCCESS** for 1 second then exit to current setup state, if you enter errors the LCD screen shows **ERROR** for 1 second. You can press any **device** key to finish set up or press **EXIT** key return to the last state.
